1931 Wholesale and Retail Price List of Standard and Rare Gladiolus Bulbs

READ THIS BEFORE ORDERING

I take great care to have everything true to name and will replace free or refund the money, on any stock untrue to name. If for any reason you are not satisfied with the stock when received, return it and your money will be refunded including transportation charges you have paid. I want only satisfied customers.

TERMS AND DISCOUNT

Cash or 25% down and balance C. O. D. All orders are received subject to prior sale. Discounts do not apply on collections or any other goods than gladiolus bulbs. Half dozens will be sold at the dozen rate, 25 at the 100 rate and 250 at the 1,000 rate. Minimum item of bulbs 10c; of bulblets 15c. When quoted by the quart we supply pints and half pints at the quart rate if desired. 250 bulblets at the 1,000 rate if the 250 bulblets would not be less than 15c. On all cash orders you may select extra bulbs or bulblets as follows:

5% extra on orders from \$2.00 to \$10.00; 10% extra on orders from \$10.00 to \$25.00; 15% extra on orders from \$25.00 or over. On all orders mailed before Mar. 15 an additional 5% in bulbs over above amount may be selected.

All prices quoted are postpaid on orders for \$1.00 or more. If order is less than \$1.00 please add 20c to help pay cost of postage, packing and handling. All mail orders for less than \$1.00 are filled at a loss and there is usually no profit on less than \$2.00 orders hence no discount is allowed on less than \$2.00 orders.

If you want \$25.00 worth or more of varieties quoted by the 100 or 1,000 ask for special price by express collect. You can often save 10 to 25% by this method.

LOCATION

We own a 50 acre farm on the paved Jefferson Highway (No. 1) 1¼ miles due north of court house. We grow gladiolus, peonies, iris, delphiniums, lillies, tulips, pansies, and many such perennials as gaillardia, coreopsis, daisies, etc., also many annual flowering plants as well as vegetable plants. We invite you to stop to see us if you ever pass this way. The latch string is always out.

OUR 1930 BULB CROP NORMAL OR ABOVE

Visitors to our gardens in 1930 from many parts of the United States, told us that the Cannon River Valley was the most favored section they saw anywhere. Our farm is in the Cannon Valley. We had normal rainfall except in late July and August so our bulbs are normal to above normal in size and quality.

 YELLOW TREASURE (A) Clear rich yellow. Coppery old rose in throat. L. 2 for 10c; doz. 40c; 100 \$2.20; M. doz. 30c; 100 \$1.40.

COLLECTIONS

Our collections are all hand made, as orders are shipped out from our regular stock, and are not just junk that we want to get rid of. Don't be afraid of small size bulbs in some of the collections. All will bloom if planted by May 15 to 20, and when mixed in collections with larger sizes will give you blooms over a much longer period from one planting than if all large bulbs are used.

ALL SEASON COLLECTION \$1.00

A high class mixture of 100 bulbs (25 No. 3; 50 No. 4; 25 No. 5) that will give you continuous bloom from mid July till hard frost, if planted by May 15 to 20. All colors in this mixture from pure white, through pink, rose, lavender, purple, yellow and various other shades to blood red. If separately labelled these bulbs would cost \$2.00 to \$3.00, so we might justly call this our "Missionary Collection," for doubtless it will be the beginning for many, who never grew glads before. Remember you get the entire 100 bulbs (20 or more varieties) that with only a little work will be pleasure producers for 75 days, for only \$1.00 postpaid, and you will harvest as many or more than you plant of nice large bulbs to plant again next year. And still more, if you come and get them so we don't have to pay postage on them, we will give you 10 large bulbs extra for your trouble. We never offered so much value for \$1.00 before, but we know dollars go farther now because it takes more labor or more butter eggs or grain to get them, but we know we all need some pleasure along with our work so we have just gone the limit to do something to help you have some fine flowers for your home, church or sick friends.

THE THIRTEEN COLLECTION \$2.00

Do you believe 13 is a lucky number? We do. We would rather have 13 dollars than 12 or 13 glad bulbs than 12, so we offer you 13 each of any 10 kinds separately labelled in the following list of 13 varieties. (130 bulbs in all) for only \$2.00. All No. 4, all will bloom if planted by May 15 to 20. Here is the list. You may have 2 or more 13's of any kinds except Annie Laurie and Longfellow. Annie Laurie, Break O'Day, Carmen Sylva, Crimson Glow, E. B. Williamson, Elizabeth Tabor, Giant Nymph, Longfellow, Marnia, Orange Queen, Quinton, Romance, White Butterfly.

YOUR OWN COLLECTION \$2.00

You may select any \$2.50 worth of the following items for \$2.00. All bulbs 1½ inch and up. Annie Laurie, 2 for 16c; Apricot Glow, 1 for 12; Capt. Boynton, 2 for 10c; Cardinal Prince, 2 for 14c; Copper Bronze, 2 for 16; Dr. Bennett, 2 for 14c; Ethelyn, 2 for 10c; Giant Nymph, 2 for 10c; Gloriana, 1 for 10c; Gold Eagle, 2 for 14c; Golden Dream, 1 for 10c; Iwa, 2 for 16c; John T. Pirie, 2 for 16c; Kunderd's Yellow Wonder, 2 for 16c; Longfellow, 2 for 14c; Marnia, 2 for 16c; Minuet, 1 for 20c; Mrs. F. C. Hornberger, 1 for 12c; Mrs. Leon Douglas, 2 for 16c; Mrs. P. W. Sisson, 2 for 18c; Nancy Hanks, 2 for 16c; Orange Queen, 2 for 10c; Primate, 1 for 20c; Purple Queen, 1 for 15c; Romance, 2 for 10c; Tiffany, 2 for 10c; Tycko Zang, 2 for 10c.

IDEAL COLLECTION \$2.75

We offer 100 large bulbs No's. 1, 2 and 3 all colors assorted (more than 25 varieties) for \$2.75. Half of this collection for \$1.50. There will be early, midseason and late kinds in this collection so you will have bloom for two months or more.

SIZES

Bulbs are sized as follows: No. 1 1½ inch or more in diameter. No. 2 1¼ to 1½ in.; No. 3 1 to 1¼ in.; No. 4 ¾ to 1 in.; No. 5 ½ to ¾ in.; No. 6 ¼ to ½. L. means a No. 1 or No. 2 bulb. These will give full size blooms and stalks. M. means No. 3 or No. 4, which will always bloom though not quite so early and usually not so large as 1 and 2. S. means small or No. 5 and No. 6. No. 5 will usually bloom and many No. 6 will also in most kinds but blooms are usually some smaller and not so tall. Varieties differ much, some will bloom finely from small sizes while others will not. L. size will be about half each of No. 1 and No. 2 bulbs. M. will be about half No. 3 and No. 4. S. will usually contain more No. 5 than No. 6 and will usually bloom and make a good size bulb for next year.

BULBLETS

Some bulblets germinate nearly 100% while others may not grow well at all so we can not be responsible for their germination. Buying bulblets is a cheap way of starting, but not always dependable though we get on the average 40 to 50% germination with careful soil preparation if planted early.

SUBSTITUTION

We do not substitute without your permission, only that in the same variety we may give equal or better value in a different size if out of size ordered. If out of variety ordered we return your money unless you give us a second choice. A second choice is often wise as it may save correspondence and we are always liberal in filling second choice items.

INSPECTION AND ROTATION

Our stock has been state inspected and pronounced clean. Many large growers are obliged to rent land outside their home places, often having to go many miles to find suitable soil, because it is found on careful trial that glads should not be grown on the same soil oftener than once in 4 or 5 years for best results. We usually grow 2 to 3 acres each year and have 30 acres of upland sandy loam just right to grow them on so will not have to put them back on same soil for many years and can still grow them on our home place under our personal attention.

CUT FLOWERS BY MAIL

We cut in bud and pack for shipment at 75c a dozen, and we ship postpaid at \$1.00 a dozen up to 500 miles. If distance is short we add more flowers to equalize the less parcel post rate. In other words, you always get your money's worth. Peonies and gladiolus ship well and open up finely on arrival when placed in water.

DELPHINIUMS

This is the most beautiful blue flower for landscape or cut flowers. It is hardy most every where and will live for years if you scatter a few sifted coal ashes over the crowns of the plants in the fall to keep slugs away. We offer young plants of Belladonna, light blue, that will bloom this year (from seed sown in August) at 2 doz. for 50c; 5 doz. for \$1.00, postpaid. We also offer 20 months old clumps that will give fine blooms this year at 4 for \$1.00 postpaid, \$2.75 per doz. postpaid. Less than 4 not prepaid.

HYBRID DELPHINIUMS

We offer the well known Wrexham strain that comes in various shades from the most delicate sky blue, through varying shades of pink to purple and indigo. These are strong 20 months old plants not yet transplanted and will give good blooms this year if planted by May 1. No plants for sale from these Hybrids after May 1.

\$1.00 per doz., postpaid.

PANSY PLANTS

We grow thousands of pansy plants and sell most of them locally, but offer nice strong plants in bud or bloom at 2 doz. for \$1.00, postpaid.

SMITH'S IMPROVED BONNY BEST TOMATO

We have been selecting this tomato for 15 years. We now have a strain that is very early, medium in size always smooth and ripens a beautiful red all over even right up around the stem. We have many customers who drive 10 to 25 miles to get their plants from us every year because it is the smoothest and best all around tomato they ever saw. They say it looks just like the pictures on the catalogues. Fine flavor. Heavy cropper. Seeds from selected fruits, packet 25c. Strong transplanted plants (May 10 to June 15), 3 doz. for \$1.00, postpaid in first 3 zones.

BLEEDING HEART

This fine well known flower will greet you every May with long graceful stems of heart-shaped bright pink flowers. Roots planted in early spring will bloom in a few weeks. It does well anywhere even in shady places. Roots 75c each, 3 for \$2.00, postpaid.

PEONIES AND IRIS

We grow over 90 varieties of the best standard and new peonies and 50 varieties of iris. Free price list to anyone interested.

AMERICAN GLADIOLUS SOCIETY

The American Gladiolus Society publishes a monthly magazine devoted entirely to the growing and care of gladiolus, description of new varieties, etc. The dues are \$2.00 a year which includes the magazine for the year. Better join and keep posted on the new things in the glad world. Send the \$2.00 to Roscoe Huff, Sec'y., Goshen, Indiana. In 1930 the gladiolus growers of Minnesota organized a Minnesota Gladiolus Society and held a show in August in Minneapolis. The 1931 show will also be held in August. Annual dues \$2.00 or \$1.00 if you hold regular American Gladiolus Society membership.

The Flower Grower, Calcium, N. Y., is the best all around flower magazine in America. Subscription price is \$2.00 per year and well worth it.

REGISTERED JERSEY CATTLE

We have a small herd of tuberculin tested Jerseys. Our herd is Federal accredited. We never had a reactor. Our average test last year in the Dairy Herd Improvement Association was 6. We occasionally have a cow, heifer or sire for sale. If interested write or better yet come and see us.

LAST BUT NOT LEAST

For the past five years we have written a few words about the youngest member of the family Miss Dorene—now most 18—who is usually flower saleslady much of the summer time. She kind of wanted daddy to omit it this year but it has become sort of a habit now so is a little hard to break. She is attending our state agricultural school (her second year) fitting herself for 4-H Club leadership work. She has been a 4-H girl for 5 years. In 1928 she won a trip to the state fair in canning work, in 1929 in Home Beautification work and in 1930 in Dairy Calf club work. In 1930 she and her team mate Irma Reineke of Morristown selected as their demonstration subject "Ice cream making in the home" on which they won championship at the state fair over 12 teams in dairy production and grand championship over all agricultural 4-H demonstrations with over 40 teams competing. This winning gave them a free trip to the National Dairy Show in October 1930 at St. Louis, where they won National Championship. They have had other honors accorded them as the result of their winnings but we must stop here for fear of being accused of boasting. We will close by saying all these honors have not made her a bit puffed up and she will still be flower girl this summer and give all customers and visitors the same courteous treatment as in past summers. Yours for fine flowers.

C. H. SMITH
